

Wild Willpower

presents PAC

A Wise Path Forward An Unprecedented National Plan

Unlike most Political Action Committees ("PACS"), Wild Willpower PAC wasn't created by a corporation or politician: we're the first registered "Civil PAC" in the country - created by Citizens who are done having our positions remain unrepresented by parties, candidates, and media outlets. That's why we're gathering petition signatures and educating the public about our unique plan which guarantees every citizen who is wanting and willing to live sustainably, access to their own housing, land, and vital resources. Aided by Homesteading Starter Kits, new technology, and a growing team of ethnobiologists (including Native American teachers), our platform benefits the economy, restores ecosystems, and creates hundreds of thousands of jobs helping people to live sustainably from coast-to-coast.

Besides mapping the U.S. legal system on www.ReUniteTheStates.org, we also propose simplifying the justice system via creating uniform courtroom procedures throughout each state, thus eliminating local rules nationwide.

Come tour our entire platform, meet fellow citizens, and get involved. We're just getting started, and we look forward to joining forces with you.

"Demand what you need - not what they tell you to want."

Presented by Nevada, IA native and founder of Wild Willpower (www.WildWillpower.org), Alex Wilson.

SEPTEMBER 12, 2018

@ Ames Public Library

7:00 - 8:30 p.m.

When politicians continue to throw billions of dollars over the tops of peoples' heads, making issues from non-issues, and never addressing peoples' most urgent, dire needs, it then becomes time to jump into the political arena - to create a new political platform...
