Hello, 04-11-25

My name is Robert Fuller, I am an ordained minister in the Universal Life Church Monastery. I am also the Director of the Butterfly House Sanctuary, a Spiritual Community. I prefer my nickname: TICOR.

I first met Sondra Wilson in the spring of 2010. When she began studying Lichens with my late partner Bill Hill. As the founder of the California Lichen Society he worked closely with her and endorsed her work and studies. I have seen her grow and develop her skills every since. She helped to organize Bill's Library, "The Library for Social and Technological Alternatives" and added an ethnology section as well.

She has become "Family" to me. Before Bill passed he was in cognitive decline, this woman flew to California and spent 2 weeks caring for him. As I was hospitalized facing a major surgery. This gave me time to finalize all of Bill's care from my hospital room.

I wish to add my name to the list of those endorsing her work and her character.

Thank You,

TICOR

(Robert Fuller)
